

SCHWEIZER SERVICE LETTER

SUBJECT: Technical Publications - Policy & Price Changes, 2010

MODELS AFFECTED: All 269 Series Helicopters

REFERENCE: In an effort to be more customer centric, Customer Service has recently added the Publications Department to our team. We have some new and exciting updates regarding our publications we would like to share with you. As each and every one of you know the economic conditions within the aviation arena has been harsh for many of us. If there has been any goodness that has come out of this situation it is that we have given a much higher focus to where we are spending our money. In an attempt to standardize and simplify our technical publications distribution process, we are pleased to announce that Schweizer Aircraft Corp. has placed all model IPC's, service letters, bulletins and notices on our website.

We are now offering technical manuals on CD. Publications included on the CD are the Handbook of Maintenance Instructions (HMI), Illustrated Parts Catalog (IPC), Service Bulletins/ Notices & Letters (N&L), and Publications Index for the following helicopter models:

- 269A-C
- 269C/S-300C
- 269C-1/S-300CB/S-300CBi
- 269D/S-330/S-333

Pilot's Flight Manual (PFM) will continue to be offered as paper manual.

Other Publications News

The S-300C Pilot's Flight Manual will be changing the size of paper to 5-1/2 x 8-1/2 instead of 6-1/2 x 8-1/2. This will standardize our Pilot's Flight Manuals and result in cost saving we expect to be able to pass to our S-300C PFM subscribers.

If you wish to receive paper copies of any manual, they will be available at the rates on the next page:

Technical Publications Price List

Tech Pubs on CD is \$595 which includes HMI, IPC, Bulletin & Letter Set for all Schweizer commercial helicopters
